What a year it's been  
What a year it's been  
What a year it's been  
What a year it's been  
What a year it's been  
What a year it's been  
What a year it's been

What a year it's been  
I know that this year has  
Been one of the hardest  
Come in and take off  
Your coat of worries  
Leave your unpacked baggage at the door  
Plump yourself on the sofa of no judgement  
I am hear to listen to how  
This year really tried to break us  
From  
Wildfires, drone strikes and war  
From  
A failed impeachment, leaving the EU and Explosions  
From  
Countless deaths, a global pandemic, and some boys in blues still killing us.  
I watched the world try to crumble around me  
They locked the world down as if it had committed a crime,  
when it was only trying to survive.  
But we are designed resilient  
This year had us all re-evaluating what is truly important to us.  
I need you to know that black lives always matter.  
What a year it's been.

What a year it's been.  
What a year it's been.  
Be Grateful that you're still here  
Be Thankful for the ones you love  
Give them their flowers now  
Give them a hug now  
Yeah  
Appreciate your time (appreciate your time)  
Be in the moment yeah  
Here and Now  
What a year it's been.  
What a year it's been.

Now you've had a moment to catch your breath  
It's time to head back into the world  
Time to go now, stay head strong.  
Know that this journey won't be easy but it sure will be worth it  
Keep on moving, movement is life.  
You have been through so much and you are still standing  
What a year it's been - What a year it's been  
What a year it's been - What a year it's been  
What a year it's been - What a year it's been  
What a year it's been - What a year it's been  
What a year it's been - What a year it's been
